Cost considerations

Network limitations

Average approval time for credentialing

What functions we perform on your behalf

Network research

Annual credentialing
maintenance

Application filing

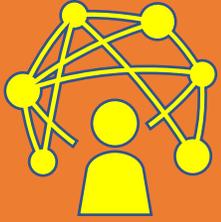

PECOS and CAQH set
up and maintenance

Application follow up

Contract negotiation

Network research

We do extensive research to make sure your practice or group has most of the carried, popular and effective In network mix.

Our team has extensive experience on enrolling providers with Medicaid plans along with all commercial payors.

We ensure to reach all payors as you suggested and get accurate timelines .

Application filing

As we get all the information and documents that are required to file the application our team will go ahead and submit the application.

Our expert team makes sure it's a flawless submission in the first go.

This ensures the shortest turnaround time in getting the contract.

Application follow up

Our team will follow up the submitted application once in 12 days to ensure that the application we submitted has been received.

We ensure that the application is smooth without any additional information.

A regular follow up until the contract reaches the provider

Annual credentialing maintenance

We help with all basic and complex demographic changes such as updating a new TAX ID with all payors in your payor mix and updating new address, bank account.

We also set up all ERA and EFT enrollment.

We also manage and maintain all your provider credentialing data on our credentialing portal which is a very comprehensive, transparent and HIPPA compliant tool that we specifically designed to make sure your database is accurate.

PECOS and CAQH set up and maintenance

Keeping up to date
PECOS and CAQH
profiles is of utmost
necessity in today's
healthcare environment.

The biggest payors are
all turning the CAQH
route to credential and
enrol medical providers.

We maintain and upkeep
your CAQH and PECOS
profiles, making sure all
your information is
accurately profiled and
compliant.

Contract negotiation

We do fee rate negotiations for you as we have an extensive database of all payors latest fee schedules.

We do extensive research on your competitors and this data helps us making the best possible rates for your procedures.

We revisit your older contract and try to get better rates as per availability from the payors at the current time.

TIMELINE

Day 1

Get the information of providers and do network research of payors of whom to be credentialed

Day 7

Provide you the report application filed.

Day 15

Provide you the report of follow up on status of application.
