

Payment Posting Pitfalls? We've Got You Covered!

Time-Consuming Processes

Payment posting tasks can be time-consuming and require meticulous attention to detail. Dental offices need to extract electronic Explanation of Benefits (EOBs), verify payments, verify patients' balances, and enforce broken appointment policies. The volume of these tasks can be overwhelming for front office staff with multiple responsibilities.

About Us

Today's Dental Services is a leading dental service provider specializing in comprehensive administrative services for dental clinics across the United States. Founded in 2017 by Dr. Sreekanth Emani, our company streamlines operations and optimizes the front office staff and dentists' experience. We empower dental offices to deliver exceptional care while enhancing practice efficiency for solo practitioners or part of a larger dental organization. At Today's Dental Services, we understand the unique challenges faced by dental professionals, and our mission is to provide reliable, innovative, and tailored solutions that drive practice growth and success.

SINCE 2017

Potential Revenue Loss

Inaccurate payment posting can lead to revenue loss for dental offices. If payments are not accurately applied to patient accounts or if funds are not received due to banking errors, it can result in uncollected revenue.
